The session was divided into 3 slots one for LKG and 2 for UKG, so as to provide individual attention to the parents. Parents were formally welcomed and introduced to the culture of the School. The orientation began with a brief address by our HM, Mrs. Rakhi Khanna. All teachers of Naval KG DH were present on the occasion.

The parents were briefed about the rules and regulations of the school. Later, they were given an overview of the various subjects and the activities which would be undertaken in the year ahead. Not to forget, the co-scholastic activities were also discussed that gave the parents an idea of the curriculum which is self-directed with hands-on learning activities that not only give our students a medium to fully utilize their creative talents and energies, but also help them in their all-round development. A sample routine was also displayed so as to help our parents make life more predictable and a little more certain for our students.

The orientation programme proved to be a sincere effort made by the school in educating the parents to look after and guide their children in a proper manner. It also helped in evolving a common teaching strategy and evaluation criteria and helped the parents in identifying suitable follow up methods to reinforce the learning process of their children. After an hour long session of each slot, the platform was open for queries, which were answered by the HM.

In keeping with these objectives, the International Yoga Day is being observed since 2015.

Due to the coronavirus pandemic, Naval Kindergarten, Dolphin Hill, Visakhapatnam, celebrated **International Yoga Day virtually** through a pre-recorded video. The theme for this year's Yoga Day was decided by Naval KG, DH as '***Yoga at Home and Yoga with Family***'.

The video, which was forwarded to all children of LKG and UKG, started with an introduction, followed by some easy Yoga poses by the teachers. The video concluded with the benefits of Yoga. With schools closed and summer break activities cancelled, parents found it challenging to keep their children physically active. And yoga helped. As kids can practice many yoga poses without any risk and get the same benefits that adults do, including increased flexibility, fitness, mindfulness and relaxation.
